

This form is for our records. In return for your support you will receive photographs, school reports and letters from the child. You will also receive annual up-dates of their development and well being. In turn I would like to be able to tell the child a little about their sponsor. If you could return a photograph of yourself it would be much appreciated. Similarly if you could write a little about your hobbies and interests, the people close to you, where you work and your favourite things (food, colour, animal etc) I am sure the child would be very interested. Any correspondence from a sponsor can have a very positive effect on the child's well being. Thank you.
